PROJECT CERTIFICATION

This is to certify that

Farhan Ali

(1388437)

Has successfully designed & developed

Funzone Theme Park

Date of Submission: <u>3 December 3, 2022</u>

INTRODUCTION

The thirst for learning, upgrading technical skills and applying the concepts in real life environment at a fast pace is what the industry demands from IT professionals today. However busy work schedules, far-flung locations, unavailability of convenient time-slots pose as major barriers when it comes to applying the concepts into realism. And hence the need to look out for alternative means of implementation in the form of laddered approach.

The above truly pose as constraints especially for our students too! With their busy schedules, it is indeed difficult for our students to keep up with the genuine and constant need for integrated application which can be seen live especially so in the field of IT education where technology can change on the spur of a moment. *Well, technology does come to our rescue at such times!!*

Keeping the above in mind and in tune with our constant endeavour to use Technology in our training model, we at Aptech have thought of revolutionizing the way our students learn and implement the concepts using tools themselves by providing a *live and synchronous eProject   learning environment!*

So what is this eProject?

eProject is a step-by-step learning environment that closely simulates the classroom and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to

- o Practice step by step i.e. laddered approach.
- o Build a larger more robust application.
- o Usage of certain utilities in applications designed by user.
- o Single program to unified code leading to a complete application.
- o Learn implementation of concepts in a phased manner.
- o Enhance skills and add value.
- o Work on real life projects.
- o Give a real life scenario and help to create applications more complicated and useful.
- o Mentoring through email support.

The students at the centre are expected to complete this eProject and send complete project along with the documentation to eProjects Team

Looking forward to a positive response from your end!!

Acknowledgement

I am highly indebted to Aptech for their guidance and constant supervision as well as for providing necessary information regarding the project & also for their support in the completing the project.

I would like to express my gratitude towards my parents & member of Aptech Computer Education for their kind co-operation and encouragement which help me in completion of this project.

I would like to express my special gratitude and thanks to industry persons for giving me such attention and time.

My thanks and appreciations also go to my colleague in developing the project and the project and people who have willingly helped me out with their abilities.

Problem Statement

The 'FUN ZONE' Most Entertaining Theme Park, is one of the best ideas executed in the amusement & entertainment industry. It caters to everyone, be it a child who seeks entertainment or an adult who wishes for a pleasant evening. This initiative is aimed towards providing its visitors with ample elements to spend a quality day. It promises fun and frolic packed with adventurous and elegant ambience.

It has 7 different internationally themed zones which will keep you occupied for the entire day. You will never fall short of excitement or thrills, thanks to the mascots that will make sure you are treated with the best of hospitality. There are zones like thrill rides, 7 wonders of the world, a massive food court and other areas ensuring 360 degrees of sheer entertainment.

Growing in popularity, the park has connected with thousands of families and has successfully entered the massive amusement & entertainment industry.

'FUN ZONE' is looking to have it's own website to provide information and also connect with prospective clients.

Requirement Specification:

The Web site is to be created based on the following requirements.

1) The Home Page should be created with sections, graphics and with a suitable logo
2) The site should display a menu with following categories:

- EXPERIENCE
- LEISURE & DINNING
- PARKS CHARACTERS
- WHATS UP
- PARK INFORMATION
- BUSINESS OPPORTUNITIES

3) 'EXPERIENCE' menu option should provide an overview of the entire park with proper maps and brief information on the sections in park.
4) 'LEISURE & DINNING' menu option should provide information on food section with outlet details. It can also be organized brand wise. When a user selects any particular brand, a list of products for that brand will be displayed
5) 'PARKS CHARACTERS' menu option should provide details about the characters in the parks and a small story should be associated to them.
6) 'WHATS UP' should provide details of past and upcoming events.
7) There should be a "Contact Us" page which will have the Address of the Company which is as follows and the mail address which when clicked will invoke the local mail client from where they can send an email.

Hardware/ Software Requirements
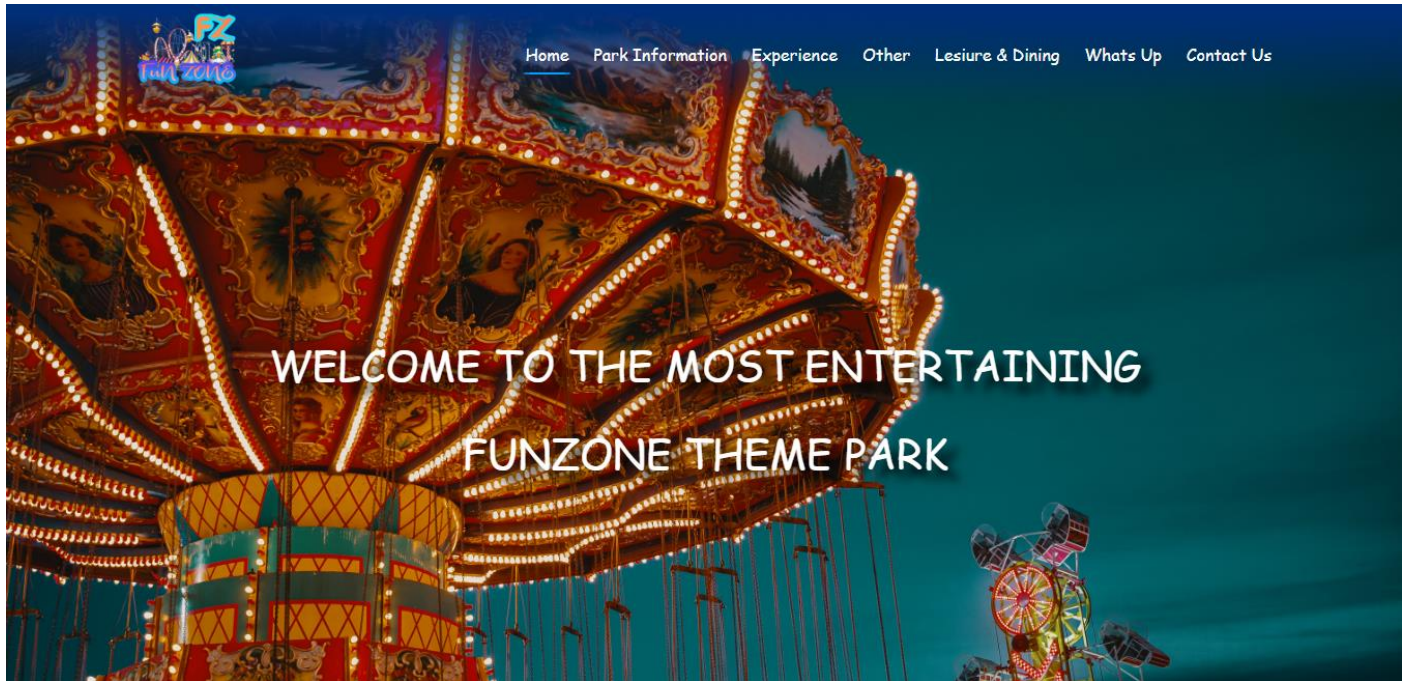

Hardware

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

Software

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

Coast Rider

MORE DETAILS

XCELERATOR THE RIDE

Rocket 0-82 mph in 2.3 seconds as you fly 205 feet into the air before immediately hurtling 90 degrees straight down on Xcelerator The Ride® roller coaster at Knott's Berry Farm. Slick back your hair and grab your leather jacket; happy days are here again! This high-octane coaster fires up its engines on the Boardwalk with chrome-plated, flame-emblazoned '57 Chevys and speed

From the minute you enter the station, you're transported back to the time of greasers, beatniks, and cubes. Step up to the platform and fasten yourself into one of the yellow and orange flame-emblazoned, candy-apple red or purple fin-tailed hot rods. You are now in the passenger seat and the driver is racing for pink slips. Hold on tight and make sure your knuckles are white because this baby burns rubber across 2,202 feet of cool coral track.
